

PROJECT TITLE:

10th Air Support Operations Squadron Complex

Project Location:	Fort Riley, Kansas
Scope:	Civil Site Design, LEED
Self-Performed Work:	Civil Site Design, LEED, Surveying
Construction Cost:	\$11,068,000
Project Start Date:	June 2008
BHC RHODES Client:	VOA Architects
Contact Name:	Ted Fery, AIA, Principal
Phone Number:	(407) 425-2500
Project Owner:	US Army Corps of Engineers
Contact Name:	Allen Ewell
Phone Number:	(816) 389-3057

The 10th Air Support Operations Squadron (ASOS) Complex is located at Fort Riley, Kansas. The complex is an Air Force facility which will be administered by the United States Army Corps of Engineers. This design-build project has also qualified as a LEED Silver certifiable project. The 10th ASOS Complex is one of multiple projects that BHC RHODES has been involved in as Fort Riley continues to improve their military facilities. Using the A/E/C CAD Standards, which is what the United States Department of Defense uses for its military construction projects, we provided site grading plans, KDHE permits, sanitary sewer main extension plans, storm sewer plans, and concrete hardstand design.
