

PROJECT TITLE:

207th and Clare Intersection Reconstruction

| | |
|-----------------------------|--|
| Project Location: | Johnson County, Kansas |
| Scope: | Engineering Design, Surveying |
| Self-Performed Work: | Engineering Design, Surveying |
| Construction Cost: | \$440,000 |
| Project Start Date: | August 2005 |
| BHC RHODES Client: | Johnson County Department of Infrastructure and Transportation |
| Contact Name: | Don Hovey, P.E. |
| Phone Number: | (913) 715-8346 |
| Project Owner: | Johnson County Department of Infrastructure and Transportation |
| Contact Name: | Don Hovey, P.E. |
| Phone Number: | (913) 715-8346 |

207th Street and Clare Road intersection is one of many roads that needed improvement with the growth of southern Johnson County. The existing intersection had limited sight distance and a steep grade on Clare Road as it approached 207th Street. BHC RHODES provided engineering services consisting of plans to lower the intersection, cut back steep banks blocking visibility near the intersection, reduce the grade on Clare Road, and enhance drainage around the intersection.
