Phone Number:	(913) 294-4377
Project Owner:	Miami County, Kansas
Contact Name:	J.R. McMahon, Director of Highway Dept.
Phone Number:	(913) 294-4377

BHC RHODES was selected by Miami County to perform a road safety audit (RSA) along an 8-mile section of 223rd Street in rural Miami County. Due to an elevated crash rate for this rural collector, the County was awarded High Risk Rural Road (HRRR) funds by KDOT for the safety assessment. A multi-discipline team of County and consultant staff conducted a field review to document observed safety concerns. In accordance with FHWA procedures, a final report was presented to the County summarizing the observations and suggestions, along with budgetary costs and prioritization for the suggestions. The RSA report was used to successfully apply for additional HRRR funds from KDOT to begin making improvements.
