Phone Number:	(913) 837-5811
Project Owner:	City of Louisburg, KS
Contact Name:	Bill Schrandt
Phone Number:	(913) 837-5811

BHC RHODES designed improvements to 1.1 miles of rural roadway from Metcalf Avenue to 69 Hwy to accommodate the residential growth and additional traffic at the southern edge of Louisburg. These improvements were completed in three phases keeping up with growth demands around Howard Street and Rogers Road.

Improvements included change in vertical alignment to improve site distance and safety, upgrade of rural roadway to paved standards, replacement of several drainage structures, and coordination with adjacent developers.
