

PROJECT TITLE:

Apache Elementary School

Project Location:	Overland Park, Kansas
Scope & Self-Performed Work:	Storm Drainage, Civil Site Design, Surveying
Construction Cost:	\$12,000,000
Project Start Date:	August 2009
BHC RHODES Client:	ACI/Boland Architects, Inc.
Contact Name:	Larry Diehl
Phone Number:	(913) 338-2300
Project Owner:	Shawnee Mission USD #512
Contact Name:	Chris White
Phone Number:	(913) 993-8514

BHC RHODES provided civil engineering for a replacement school being built on the site of an existing school. Construction documents were phased to allow the existing school to operate while the new school is under construction. Part of the civil design included storm drainage engineering. The City of Overland Park has unique stormwater requirements, so to accommodate those, BHC RHODES incorporated multiple water quality methods together with traditional stormwater sewers to create the drainage system.
