<b>Phone Number:</b>	(816) 591-0447
<b>Project Owner:</b>	Bass Pro Shops

BHC RHODES provided 3D laser scanning services for Bass Pro Shop's Wonders of Wildlife Renovation and Expansion. Scanning was used to inventory existing conduits, ductwork and equipment in the basement area. This is the second of four phases of a \$25 million expansion and renovation. The last two phases include an entry and lobby that connect to Bass Pro Shop, and new aquariums and exhibits. Initially in 2001 when Wonders of Wildlife opened, it showcased more than 225 species of live animals, fresh and saltwater aquariums, interactive displays and educational programs. The grand reopening of the entire Wonders of Wildlife facility is scheduled for December 2012.
