The Boot Hill Museum is an accredited western-history museum that includes the original site of Boot Hill Cemetery in Downtown Dodge City. It is interpreted with the help of the reconstruction of Front Street of the 1876 era. BHC RHODES was selected to lead a design team to assess the current site and building conditions and complete a preliminary master plan for the renovation and expansion of the Museum. BHC RHODES prepared a site assessment of the museum grounds that included overall condition, ADA accessibility, site grading, storm drainage and utilities. As the new redevelopment / museum expansion plans are completed, BHC RHODES will be responsible for general site design, including grading and storm drainage.
