Phone Number:	(913) 279-2098

Douglass / Central Elementary School is one of multiple elementary schools in the Kansas City, Kansas School District. The school has been opened for over 100 years dating back to 1887. The expansion of the elementary school will allow the current students at Douglass and Central Elementary Schools to be in one facility.

BHC RHODES provided site design services consisting of surveying, site plan, grading and erosion control, storm drainage, utility service connections, permitting assistance, and construction administration. This is one of multiple elementary schools in the school district the company has helped design to assist ACI Frangkiser Hutchens.
