**Everett Quarries**

<b>Project Location:</b>	Clinton County & Caldwell County, Missouri
<b>Scope:</b>	Surveying
<b>Self-Performed Work:</b>	Surveying
<b>Construction Cost:</b>	N/A
<b>Project Start Date:</b>	June 2011
<b>BHC RHODES Client:</b>	Clarkson Construction
<b>Contact Name:</b>	Steve Kellerman, Jr.
<b>Phone Number:</b>	(816) 241-6823
<b>Project Owner:</b>	Everett Quarries

BHC RHODES provided a boundary survey for Clarkson Construction for a 630 acre site in Clinton County, Missouri. This acreage consisted of land parcels in four sections and 4.5 miles of abandoned railroad right-of-way. BHC RHODES also provided a boundary survey for Clarkson Construction on a 383 acre site in Caldwell County, Missouri. This survey revealed boundary issues with the original land transfer that were previously unknown by the customer. This documented survey information was a resource for the customer to use and remedy the issues at the closing of the land sale.
