Granite Falls is residential subdivision in the growing community of Shawnee, Kansas. The beautiful area has over 70 lots for homes with a trail surrounding a pond at the northern portion of the subdivision. The landscape and hilly streets brings out the life of this land development.

BHC RHODES provided construction staking and civil engineering services consisting of sanitary force-main sewer design, street design, storm sewer design, a detention pond design, and public improvements to Johnson Drive and Lackman Road. This project is one of multiple subdivisions the company has designed to be part of the growth in Shawnee, Kansas.
