Contact Name:	Mark Abeln
Phone Number:	(913) 345-8833

The Heatherwood office site consists of a retail/office building located in a high growth area of southern Overland Park. The new building was a compliment to the existing offices/retail buildings at the location. The site consists of retail shops, offices, and dining facilities for the nearby community.

BHC RHODES provided civil engineering design services consisting of site grading, erosion control, storm drainage, and parking lot improvements. The company has continued to provide services for multiple retail/building sites in the Overland Park area.
