Project Owner:	Shawnee Mission School District 512
Contact Name:	Chris White
Phone Number:	(913) 993-8500

Highlands Elementary School is one of multiple elementary schools in the Shawnee Mission School District. In 2006 the school was chosen as one to be rebuilt. The new building facility is expected to open the fall of 2010. This is a great opportunity for the children to attend a new facility that should benefit the community.

BHC RHODES provided civil engineering design services for the new facility. The services included plans for grading, sanitary sewer service, storm sewer design, and stormwater quality. The company continues to serve the Shawnee Mission School District for its schools' improvement projects.
