The Hollywood Casino at the Kansas Speedway will be a premiere entertainment and gaming destination in the Midwest. Located in Wyandotte County, the development is ultimately planned to include a casino with 3,000 slot machines and 100 gaming tables, a hotel, convention facilities as well as an entertainment district. BHC RHODES provided site design and civil engineering services consisting of grading and erosion control, planning and zoning application, construction period services, storm sewer drainage, utilities, paving and project permitting coordination.
