Phone Number:	(913) 451-1884
Project Owner:	Holy Cross Lutheran Church
Contact Name:	Pastor Mike Peck
Phone Number:	(913) 491-8022

BHC RHODES was selected to provide civil site design services as part of a negotiated construction project. This relationship provided a design-build approach for the site work and allowed mass grading and storm drainage facility construction to begin early in the project development process. BHC RHODES provided civil site design-build services for the construction project. The services included design for an expanded parking lot area, a site grading plan, a drainage facility, and two new access points to existing roads. Coordination of the parking lot improvements had to accommodate the patrons of the church during construction. The sidewalks and ramps located on the site were reconstructed to meet ADA standards.
