

**PROJECT TITLE:**  
**Hope Center Site Design Renovations**

**Project Name:** Hope Center Renovations  
**Project Location:** Kansas City, MO  
**Scope:** Civil Engineering Services  
**Firm's Role:** Consultant  
**Self-performed Work:** Engineering Design & Construction Management  
**Construction Cost:** Gift In-Kind  
**Civil Design Cost:** Gift In-Kind  
**Project Start Date:** September 2004

The Hope Center – Urban Youth Ministry Outreach is located at 3439 Agnes in Kansas City, Missouri.

BHC RHODES volunteered its services in conjunction with other industry professionals to provide design plans. The plans were for new construction and renovations on an existing site purchased by The Hope Center. Design plans included demolition of selected site surface, grading, erosion control, utility and appurtenant site improvements, and fencing.

This project provided approximately 60 pods for kids in the renovated building as well as other improvements.
