

PROJECT TITLE:
LabOne Site Design for Parking Lot Expansion

Project Name: LabOne Site Design for Parking Lot Expansion
Project Location: Lenexa, Kansas
Scope: Architectural & Engineering Service
Self-performed Work: Civil Engineering; Topographic Surveying
Project Start Date: March 2004

BHC RHODES was selected to provide site design for the expansion of the parking facilities at LabOne headquarters. LabOne is a centralized laboratory in Lenexa, KS that provides testing and information services to companies nationwide.

The expansion design involved grading, erosion control, storm drainage design, and parking lot improvements to existing lot.
