Project Start Date:	April 2006
BHC RHODES Client:	RED Development
Contact Name:	Jeff McMahon
Phone Number:	(817) 777-3500
Project Owner:	City of Sparks, NV
Contact Name:	Neil Krutz
Phone Number:	(775) 353-2304

BHC RHODES designed the roadway improvements of Lincoln Way. These improvements included nearly 1 mile of new arterial streets that were driven by the 1.4 million square foot Legends of Sparks development. The improvements include the design of two multi-lane round-a-bouts and two traffic signal designs. The project also included nearly a half mile of Sparks Boulevard widening from a four-lane facility to a six-lane facility. The project included design major intersection improvements that include a triple left-turn facility. Close coordination with the Nevada Department of Transportation, Regional Transportation (RTC) and the City of Sparks was required to meet the aggressive project schedule.
