Phone Number:	(805) 564-4940
Project Owner:	HCA Midwest
Contact Name:	Eddie Brooks
Phone Number:	(913) 498-6394

The Menorah Medical Center Walkway Bridge connected the path of the existing employee parking lot to the medical building. This bridge replaced the previous pedestrian bridge. An aesthetically pleasing view of trees and landscaping can be seen from the walkway bridge.

BHC RHODES provided civil site construction plans for this accessible convenient walkway bridge for the employees. The plans included site grading and erosion control, sidewalk and trail plans, and the length and location of the bridge. The company also helped with the permitting for the city and state.
