

PROJECT TITLE:

Northern and Westport Storm Water Drainage Improvements HDS

Actual Photo

Independence, Missouri, founded in 1827, is the home of Harry S. Truman and has a total population of 110,000. This historical City needed to reduce the frequency and severity of flooding of residential properties and public streets. BHC RHODES was selected by the City of Independence to provide consulting services for design of storm water drainage improvements along sections of Northern Boulevard and Westport Boulevard. High definition scanning was used to scan the hardscape to provide a topographic base map for design.

Project Location:	Independence, Missouri
Scope:	Surveying, Storm Drainage Design
Self-Performed Work:	Surveying, Storm Drainage Design
Construction Cost:	\$700,000 (estimated)
