

PROJECT TITLE:

Oak Grove Downtown Beautification High-Definition Surveying (HDS)

Actual Photo

Project Location:	Oak Grove, Missouri
Scope:	Surveying, Design & Plan Preparation
Self-Performed Work:	Surveying, Design, MoDOT Coordination, Plans and Specifications
Construction Cost:	\$355,000
Project Start Date:	February 2007
BHC RHODES Client:	City of Oak Grove, MO
Contact Name:	Bryan Long, City Administrator
Phone Number:	(816) 690-3773

BHC RHODES was selected to provide upgrades to the Central Business District by improving approximately 2-1/2 blocks of Broadway Ave. (Missouri Highway F). BHC RHODES scanned the entire downtown of Oak Grove and provided a topographic base map for design. Improvements include new curb, gutter, streetlights, architectural sidewalks with embedded heating, and upgraded building entrances. Improvements were coordinated with the Missouri Department of Transportation's planned improvements to Broadway (Highway F) from Interstate 70 to Downtown including new traffic signals at 12th & Broadway, which is the center of the CBD. This project was selected as an award winner by the American Public Works Association. (APWA)
