<b>Contact Name:</b>	Bryan Long, City Administrator
<b>Phone Number:</b>	(816) 690-3773

The Oak Grove Downtown beautification project was declared by city officials as a priority project to draw new business to the downtown core. It consisted of improving 2-1/2 blocks of Broadway Avenue (Missouri Highway F), which is located in the central business district of the city. This project was selected as an award winner by the American Public Works Association (APWA) due to the beautification. BHC RHODES provided design improvements to the downtown area which include maintenance free heated sidewalks with four heat zones, all with independent power sources, signage and street lights, brick stamped concrete crosswalks and six foot wide sidewalks, new curbs and upgraded building entrances.
