Project Owner:	City of Oak Grove, MO
Contact Name:	Joe Bobadilla, Public Works Director
Phone Number:	(816) 690-3773 ext. 1008

The Oak Grove Street Master Plan was a key component of the city's transportation goals, which were established in their long-range comprehensive plan. The plan supports economic development and made the community attractive for growth.

BHC RHODES was selected by the city to prepare the Street Master Plan. The design concepts of the plan included street classifications, bike and pedestrian paths, transportation routing, and street condition for maintenance.
