<b>Contact Name:</b>	Darrell Moyer, Public Works Director
<b>Phone Number:</b>	(620) 421-7020

The Parsons 2007 KLINK project included resurfacing 16th Street (U.S. 59) from Corning Street to Thornton Street and Main Street (Old K-96) from Labette Street to Leawood Street. The resurfacing occurs on a total of ten city blocks. BHC RHODES provided engineering services by preparing plans for resurfacing of the street sections. The resurfacing included partial full-depth replacement, partial pavement patching, joint repair and cold milling. After the resurfacing, pavement marking and permanent signage was included in the improvements.
