Prescott Plaza is a 17-acre commercial re-development project and winner of the *Kansas City Business Journal's* Capstone Award for biggest impact on a community. The project is the beginning of the Unified Government's plans to redevelop the neighborhood community in that area of Kansas City, Kansas. BHC RHODES was selected to perform construction services. Services included inspection of 8,000 tons of asphalt, 10,600 yards of concrete, and 15,200 linear feet of sidewalks. It also included inspection of traffic signal installation, street lighting, pavement marking, permanent traffic control signage, 450 linear feet of storm pipe, utilities, an 850 square foot retaining wall, erosion control, and landscaping.
