The Quik N' Tasty Corporation selected BHC RHODES to provide services for their warehouse project that consisted of a 96,000 square foot expansion and 10.7 acres of site improvements. This warehouse is the main distribution facility to all Quik Trip convenience store divisions except Atlanta and Phoenix. It is located in Belton, Missouri, just south of Kansas City on Highway 71.

BHC RHODES provided multiple civil design services including the following: site layout, site grading plan, storm water improvement plans, erosion control plans, and site utility plans. The design also included utility relocation for service connections and a detention basin analysis and design.
