<b>Project Owner:</b>	Fort Leonard Wood
<b>Contact Name:</b>	William Steininger
<b>Phone Number:</b>	(573) 512-0212

This design-build project will meet the increasing dental need of the AD and trainee population at Fort Leonard Wood, Missouri. This project will provide a new 6,300 square foot addition to the existing Roll Dental Clinic. An additional 540 square feet of existing space is to be remodeled for staff support space. The renovated portion consists of a new men's and women's bath/shower room that will replace the existing decontamination room. The sterilization room is also to be replaced by a new clean linen storage, while the existing clean utility room will become a new soiled utility room. This project has qualified as a LEED Silver certifiable project.
