<b>Contact Name:</b>	Bill Heatherman, P.E., County Engineer
<b>Phone Number:</b>	(913) 573-5300

BHC RHODES is part of the team providing KCATA and the Unified Government of Wyandotte County with engineering design, construction documents and surveying support. The transit improvements have a very high community involvement component, and included in the efforts is close coordination with the Wyandotte Nation to ensure the design of the transit center, located at 7th street & Minnesota, (adjacent to the historic Huron Indian Cemetery) appropriately reflects the history of the area in the design.
