

PROJECT TITLE:

The Bannister Federal Complex

Project Location:	Kansas City, Missouri
Scope:	Boundary Survey
Self-Performed Work:	Surveying
Construction Cost:	N/A
Project Start Date:	October 2009
BHC RHODES Client:	David Craig & Company, Inc.
Contact Name:	Daniel Craig
Phone Number:	(913) 362-3222
Project Owner:	GSA
Contact Name:	Robert Enders, Regional Appraiser
Phone Number:	(816) 823-5079

BHC RHODES was selected to provide a boundary survey to consolidate and delineate the boundaries of the Bannister Federal Complex. It is made up of five tracts of land containing 306.2 acres with a frontage to Bannister Road of approximately 1 mile. Included within the site BHC RHODES was required to resolve and monument right-of-ways for road, rail, and river boundaries. The site and main building includes restricted areas which required the dividing walls between the two areas within the building to be mapped and defined. Aerial photos with the boundaries overlaid was an additional deliverable on the project. The survey is to be recorded which will provide a valuable resource for future surveys and land transactions.
